

**340B PHARMACY  
SOLUTIONS  
THAT WORK FOR YOU.**

# FQHC SOLUTIONS YOU CAN TRUST

ACE Healthcare Solutions is the perfect partner to help you achieve your financial goals, with our proven experience in maximizing FQHC revenue streams, implementing growth strategies and improving overall quality of care.

We are experts in the design, implementation and management of FQHC pharmaceutical care. In fact, we are one of the pioneers in delivering 340B contract pharmacy services and specialized distribution programs for FQHC clinics.

## 340B PHARMACY SOLUTIONS

We help you offer your patients increased access to the medications they need, when they need them, which improves both quality of care and your bottom line.

## MANAGEMENT & CONSULTING

Our first step is to evaluate your existing operation and patient mix, and understand your 340B goals (drug discounts, revenues, service expansion). We then work with you on a plan to achieve those goals.

During this phase, we look at:

- How many sites you have
- What services are provided at each site
- Number of encounters by payer mix
- Any pharmacy arrangements already in place
- Existing resources available for ongoing pharmacy management

## RECAPTURE PROGRAM

Where in-house pharmacy is not feasible, we leverage the recapture program of our partner, RxStrategies, to achieve maximum prescription revenues.

RxStrategies offers comprehensive integrated solutions that reduce the 340B program challenges of regulatory compliance, patient eligibility, pharmacy replenishment, program tracking, and reporting.

## IN-HOUSE & CONTRACTED

Where no in-house pharmacy exists, our solutions enable you to offer fulfillment at the Point of Care. We are experts in in-house and contracted pharmacies, as well as provider dispensing.

We work closely with 340B administration companies and Pharmacy Benefit Managers to ensure seamless implementation and consolidated reporting, and we offer offsite service through our central pharmacy to ensure that both you and your patients receive the desired services at no extra cost.

## MANAGING IN-HOUSE PHARMACY

Outsourcing the management of an existing in-house pharmacy can reduce overhead, improve efficiency and generate additional revenue.

Our experienced management team works directly with pharmacy staff to:

- deliver maximum capture rates
- improve pharmacy performance
- increase patient medication compliance
- expand pharmacy services

## COMPLIANCE & REPORTING

We implement policies and procedures that ensure 340B program compliance. Our adjudication platform controls diversion risk by ensuring 340B drugs are only available to eligible patients.

You are kept up to date via our customized reporting which is tailored to your format and frequency needs.

## FORMULARY & PRICING

Our experts will analyze your prescription patterns to create customized formulary and pricing that offers maximum benefit to 340B eligible patients. We also work directly with providers to develop seasonal formularies and Low Cost Generic programs.

# WHY CONSIDER A 340B SOLUTION?

Improve patient access to and utilization of 340B drugs by offering fulfillment at the Point of Care, and at the same time generate additional revenue streams for your facility.

**Management and consulting:** We work with you to develop and implement a sustainable 340B program.

**Pharmacy options:** We help you develop the best model to meet your facility and patient requirements.

**Formulary and pricing:** Our experts create formulary and pricing tailored to the needs of your patient base.

**Compliance and reporting:** Our platform controls diversion risk, improves quality assurance and delivers tailored reporting.

**Recapture program:** We work with our partners to cover maximum prescription rates.
