MANAGEMENT & CONSULTING

We work with you to fully understand your billing challenges; looking at all aspects covering revenue cycle management, software, coding, front office process, and financial process and procedures.

We review your existing operations, focusing on systems, processes, accounts receivable and recovery services, to identify areas for improvement. We then recommend ways to make the most of your FQHC benefits, leading to increased revenue.

CREDENTIALING

Accurate provider credentialing is critical to successful FQHC revenue generation - it makes the difference between getting paid and not.

We can provide credentialing services for all your locations and providers, which gives you more time to concentrate on your patients. We complete all applications and perform the necessary follow-up to achieve successful credentialing. Progress reports are provided electronically either on a weekly basis, or as required to meet your needs.
