

# Grab your unclaimed self-pay billing revenue!

## Are you leaving billing revenue on the table? We can help you get reimbursed retroactively for self-pay balances!

### Did you know...

Self-pay and charity patients often become eligible for Medicaid weeks (or even months) after their visit with you. This is important to remember, because once they are successfully enrolled, their Medicaid coverage can be applied retroactively – *in many cases for the full length of the timely filing period.*

This means that we can help you collect reimbursements for previously uncompensated encounters!

### How do we do this?

We continuously monitor your self-pay encounters *for the duration of its eligibility period* and identify patients who have been qualified to receive coverage from Medicaid.

We then bill these encounters and collect the maximum reimbursement amount.

### Benefits to you

- Additional revenue stream
- No risk or upfront cost – we get paid when you get paid!
- Fast results
- Minimal time investment for your staff
- Easy implementation – no software or set-up fees

### About us

We are FQHC experts with proven experience in:

- maximizing revenue streams
- implementing expansion strategies
- improving quality of care

**Step 1:** Extract 3 month sample data

**Step 2:** Identify opportunities

**Step 3:** Submit eligible claims

**Step 4:** Reporting & Trending
