

# Make your **340B** program audit ready

## Is an independent external audit part of your compliance toolkit?

As part of our independent 340B Compliance and Audit Service, our experts will:

Audit claims to ensure no duplicate discounts for 340B drugs or diversion to ineligible patients

Determine whether 340B policies and procedures are adequate to maintain program integrity

Verify the existence and quality of 340B auditable records

Review purchasing practices and inventory model

Confirm that signed and dated agreement(s) are in place with all contract pharmacies

Check that HRSA 340B database information is correct and includes all locations

Independent external **340B audits** help ensure that your pharmacy services not only meet, but exceed HRSA's requirements.
